

Cortinas Roller

Por que elegirnos:

Nuestros **Nuevos Mecanismo** de 32 mm, con un nuevo sistema de cabezal móvil que se desplaza acompañando el sentido de giro de la cortina, produce una suave subida bajada y una larga vida útil, con encastre a medida de nuestro ejes de Aluminio.

Material: POM and engineering plastic, high-quality music wire spring, 2mm-thick steel plate for bracket.

Feature: Good hand-feeling, force-saving, noiseless.

Use for roller blinds which weight is up to 4 KGS, and curtain area is up to 6 square metres. Mounting Methods: Both Wall and Ceiling.
